

How to Use the Iowa ECC Screening Tool

Adapt & Distribute

- Adapt the electronic form for the age/ability of the child.
- Distribute to all team members with instructions on how to complete.
- For each area use observation, interviews, and/or demonstration to discuss whether it is a strength or need. Provide justification statement for each area.
- Once you have completed for each area determine the 2-3 priority areas for the current school year and circle.

Conduct & Analyze

- Conduct with parent and student as appropriate in order to probe for richer conversation.
- Collect forms from all team members and analyze for needs and priority areas on a clean form.

Collective Analysis & Next Steps

- Complete one screening tool with the collective comments and priority areas circled.
- Conduct the EVALS for priority areas and write up your report.
